# Foster Carers' Charter

September 2017

## Introduction

---

Wiltshire Council recognises the excellent care, support and commitment shown by foster carers and the invaluable role they play in the lives of Wiltshire's looked after children and young people. This charter aims to re-enforce that recognition, demonstrate the joint responsibilities to the children and young people in our care and build on the success and achievements of fostering in Wiltshire.

'A good quality foster placement helps achieve stability for the child, satisfaction for the carer and, most important of all, is a vital element in helping children and young people to have a decent second chance at a safe and fulfilling childhood' Tim Loughton MP, Children's Minister, The Foster Carers' Charter, Ministerial Forward.

The Government launched the Foster Carers' Charter in March 2011. It was jointly produced with fostering organisations, charities and children and young people. Recognising the invaluable work of foster carers, it sets out clear principles, based on the core belief that children come first, on how foster carers should be treated, the roles of carers and the pivotal role played by carers in helping children achieve to their full potential.

Wiltshire Council has embraced the principles of the charter and through the consultation and involvement of children, young people, foster carers and various partners we have developed our own Wiltshire Foster Carers' Charter.

This charter builds on existing solid foundations and includes the ongoing commitment by Wiltshire Council to carers through day-to-day support, events and activities for foster families, to listen to carers, children and young people, to value highly the contribution of carers in all areas, to have high aspirations for the children and young people in our care and to further develop and expand foster care in Wiltshire. We believe this should be a 'living' document and should adapt to, and reflect, best practice.

## Mission statement

---

### **Children and Young People come first.**

Children and young people in foster care deserve to experience as full a family life as possible as part of a loving family with carers who can make everyday decisions as they would their own child and without the child or young person feeling that they 'stand out' as a looked after child.

It is important that foster carers understand and empathise with the specific issues that looked after children and young people face without making them feel that they 'stand out'.

Children and young people must be given every support to develop their own identities and aspirations, fulfil their potential, and take advantage of all opportunities to promote their talent and skills. Above all, they should be listened to.
